American Assets Trust, Inc. Reports Fourth Quarter and Year-End 2011 Financial Results

Company Release – 3/6/12

SAN DIEGO – American Assets Trust, Inc. (NYSE: AAT) (the “Company”) today reported financial results for its fourth quarter and year-end December 31, 2011 and provided full year guidance for the fiscal year ending December 31, 2012.

Financial Results and Recent Developments

- **Funds From Operations of $0.28 per diluted share/unit for the three months ended December 31, 2011**
- **Signed 44 retail and office leases for 186,900 square feet**

During the fourth quarter of 2011, the Company generated funds from operations (“FFO”) for common stockholders and unitholders of $16.3 million, or $0.28 per diluted share/unit. For the year ended December 31, 2011, the Company generated FFO for common stockholders and unitholders of $57.3 million, or $1.05 per diluted share/unit, and FFO As Adjusted for common stockholders and unitholders of $60.3 million, or $1.11 per diluted share/unit. FFO As Adjusted reflects adjustments to FFO for nonoperational items directly related to the Company’s initial public offering (“IPO”) on January 19, 2011. Unitholders refers to holders of units of our operating partnership.

Net income attributable to common stockholders was $0.3 million, or $0.01 per basic and diluted share, for the three months ended December 31, 2011. For the year ended December 31, 2011, net income attributable to common stockholders was $2.9 million, or $0.08 per basic and diluted share.

FFO and FFO As Adjusted are non-GAAP supplemental earnings measures which the Company considers meaningful in measuring its operating performance. Reconciliations of FFO and FFO As Adjusted to net income are attached to this press release.

Portfolio Results

The portfolio leased status as of the end of the indicated quarter was as follows:

	December 31, 2011	September 30, 2011	December 31, 2010
Total Portfolio			
Retail	95.0%	92.6%	94.2%
Office	94.4%	94.1%	95.9%
Multifamily	91.8%	94.4%	87.4%
Mixed-Use:			
Retail	99.2%	99.2%	—
Hotel	88.4%	88.8%	—
Same-Store Portfolio			
Retail	94.8%	94.8%	94.2%
Office	97.1%	96.3%	95.9%
Multifamily	91.8%	94.4%	87.4%

During the fourth quarter of 2011, the Company signed 44 leases for approximately 186,900 square feet of retail and office space, as well as 112 multifamily apartment leases. Renewals accounted for 79.2% of the comparable retail leases, 100% of the comparable office leases and 53.6% of the residential leases.

Retail

On a comparable space basis (i.e., leases for which there was a former tenant), the Company leased 77,770 square feet of retail space at an average cash-basis contractual rent increase of 2.7% during the fourth quarter of 2011. The average contractual rent on this comparable space for the first year of the new leases is $30.37 per square foot, compared to an average contractual rent of $29.59 per square foot for the last year of the prior leases. On a GAAP basis (including the impact of straight-line rents), average rent per square foot for the comparable retail space increased 8.9% for the fourth quarter 2011.

During the fourth quarter of 2011, Nordstrom, Inc. signed a gross lease for 39,047 square feet of space at Carmel Mountain Plaza that was previously vacant. The lease is for a Nordstrom Rack, with an initial term of ten years, and four five-year options to extend the lease through August 31, 2042. The base rent for the first year of the lease will be approximately $1.1 million.

During the fourth quarter of 2011, The Gap, Inc. signed a lease for a portion of the space previously vacated by Borders at Waikele Center. At the tenant's request, the Company is not disclosing the terms of the lease.

Office

On a comparable space basis, the Company leased 40,587 square feet of office space at an average cash-basis contractual rent increase of 1.3% during the fourth quarter 2011. The average contractual rent on this comparable space for the first year of the new leases is $27.70 per square foot, compared to an average contractual rent of $27.35 per square foot for the last year of the prior leases. On a GAAP basis (including the impact of straight-line rents), average rent per square foot for the comparable office space increased 2.9% for the fourth quarter 2011.

Multifamily

At December 31, 2011, the average monthly base rent per leased unit was $1,404 compared to an average monthly base rent per leased unit of $1,421 at September 30, 2011 and $1,366 at December 31, 2010.

Same-Store Operating Income

For the three months and year ended December 31, 2011, same-store property operating income decreased approximately 5.3% and 3.7%, respectively, on a GAAP basis, compared to the corresponding periods in 2010. The results were negatively impacted by a $1.1 million allowance for deferred rent receivable recorded for Kmart at Waikele Center, which is the amount the Company currently estimates as uncollectible. Excluding the Kmart allowance, same-store property operating income decreased approximately 0.7% and 2.4% for the three months and year ended December 31, 2011, respectively. Including the Kmart allowance, the same-store property operating income by segment was as follows (in thousands):

	Three Months Ended December 31,			Year Ended December 31,		
	2011	2010	Change	2011	2010	Change
Retail	$12,888	$14,198	(9.2)%	$56,038	$58,049	(3.5)%
Office	7,189	7,076	1.6	15,457	15,856	(2.5)
Multifamily	2,129	2,180	(2.3)	8,743	9,417	(7.2)
Mixed-Use	—	—	—	—	—	—
	$22,206	$23,454	(5.3)%	$80,238	$83,322	(3.7)%

Excluding the Kmart allowance, same-store retail property operating income decreased 1.7% and 1.6%, respectively, for the three months and year ended December 31, 2011. The decreases primarily reflect a decrease in rental revenue resulting from the closure of Borders at three properties, higher operating costs and increased property taxes. The Company anticipates that the three former Borders spaces will be re-leased at the same or increased rent in the aggregate and has already re-leased the majority of one space as of the date hereof consistent with that expectation.

For the three months ended December 31, 2011, same-store office property operating income increased due to lower operating expenses, resulting from allowances for uncollectible accounts recorded in the fourth quarter of 2010 that did not occur in 2011. For the year ended December 31, 2011, same-store office property operating income decreased primarily due to lower rental rates, decreased average percentage leased and increased operating expenses.

Same-store multifamily property operating income decreased for the three months ended December 31, 2011, due to additional property tax expense for expected supplemental billings once the properties in California are re-assessed by the taxing authority, which offset additional revenues from an increased percentage leased. Same-store multifamily property operating income decreased for the year ended December 31, 2011 compared to the corresponding period year period due to increased property tax expense.

In the table above, same-store property operating income excludes income from First & Main, which was acquired in March 2011, Lloyd District Portfolio, which was acquired in July 2011, and Solana Beach Town Centre, Solana Beach Corporate Centre and Waikiki Beach Walk, as these three properties represented noncontrolled properties that were not consolidated at December 31, 2010. Same-store property income also excludes income from Valencia Corporate Center, which was sold in August 2011. The Landmark at One Market is included in same-store property operating income for the three months comparison but excluded for the year comparison because a controlling interest in the property was not acquired until June 30, 2010. Furthermore, The Landmark at One Market was not included in the Company's income for the full year ended December 31, 2010.

Acquisitions

The Company completed the acquisition of One Beach Street on January 24, 2012 for a purchase price of approximately $36.5 million, which was paid with cash on hand. One Beach Street is a 3-story, approximately 97,000 square foot renovated historic office building located along the Embarcadero in San Francisco's North Waterfront District. One Beach Street's location provides tenants on each floor with stunning views of the San Francisco Bay, Alcatraz and the boat marina at Pier 39, and is within walking distance to numerous restaurants, shops and entertainment. One Beach Street offers tenants convenient regional access via the Embarcadero to nearby Interstate 80 and U.S. Highway 101 and numerous public transportation options. One Beach Street is 100% leased to three widely recognized tenants.

Financings

On January 10, 2012, the Company amended its revolving credit facility. The revolving credit facility, arranged by Bank of America, N.A., was amended to, among other things, (1) extend the maturity date to January 10, 2016 (with a one-year extension option), (2) decrease the applicable interest rates (by 90 to 130 basis points, depending upon the consolidated leverage ratio) and (3) modify certain financial covenants contained therein.

Balance Sheet and Liquidity

At December 31, 2011, the Company had gross real estate assets of $1.7 billion and liquidity of $332.7 million, comprised of cash and cash equivalents of $112.7 million, marketable securities of $28.2 million and approximately $191.8 million of availability on its line of credit. After the amendment to its revolving credit facility on January 10, 2012, the Company's availability on its line of credit increased to approximately $214.2 million.

Dividends

The Company declared dividends on its shares of common stock of $0.21 per share for the fourth quarter of 2011. The dividends were declared on November 4, 2011 to holders of record on December 15, 2011 and were paid on December 29, 2011. Total dividends paid on shares of the Company's common stock for the period from and including January 19, 2011 to December 31, 2011 were $0.80 per share.

In addition, the Company has declared a dividend on its common stock of $0.21 per share for the quarter ending March 31, 2012. The dividend will be paid on March 30, 2012 to stockholders of record on March 15, 2012.

2012 Guidance

The Company's guidance for full year 2012 FFO per diluted share is a range of $1.09 to $1.17 per share. The Company's guidance excludes any impact from future acquisitions, dispositions, equity issuances or repurchases, debt financings or repayments. However, One Beach Street, which was acquired on January 24, 2012, is included in the 2012 guidance range. The Company will discuss key assumptions regarding guidance tomorrow on the conference call.

The foregoing estimates are forward-looking and reflect management's view of current and future market conditions, including certain assumptions with respect to leasing activity, rental rates, occupancy levels, interest rates and the amount and timing of acquisition and development activities. The Company's actual results may differ materially from these estimates.

Use of Non-GAAP Information

The Company calculates FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts, or NAREIT. FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. The Company also presents FFO As Adjusted, which represents FFO adjusted for certain identified items.

FFO and FFO As Adjusted are supplemental non-GAAP financial measures. Management uses FFO and FFO As Adjusted as supplemental performance measures because it believes that FFO and FFO As Adjusted are beneficial to investors as a starting point in measuring the Company's operational performance. Specifically, in excluding real estate related depreciation and amortization and gains and losses from property dispositions, which do not relate to or are not indicative of operating performance, FFO provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. The Company also believes that, as a widely recognized measure of the performance of REITs, FFO will be used by investors as a basis to compare the Company's operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of the Company's properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of the Company’s properties, all of which have real economic effects and could materially impact the Company’s results from operations, the utility of FFO as a measure of the Company’s performance is limited. In addition, other equity REITs may not calculate FFO in accordance with the NAREIT definition as the Company does, and, accordingly, the Company’s FFO may not be comparable to such other REITs’ FFO. FFO As Adjusted reflects certain additional adjustments for items that management believes do not reflect the operational performance of the Company’s properties. Accordingly, FFO and FFO As Adjusted should be considered only as supplements to net income as measures of the Company’s performance. FFO and FFO As Adjusted should not be used as measures of the Company’s liquidity, nor are they indicative of funds available to fund the Company’s cash needs, including the Company’s ability to pay dividends or service indebtedness. FFO and FFO As Adjusted also should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP.

The shares/units used to compute FFO and FFO As Adjusted per diluted share/unit include additional shares/units which were excluded from the computation of diluted EPS, as they were anti-dilutive for the periods presented. For the year ended December 31, 2011, the weighted average shares and units outstanding have been weighted for the full year, not the date of our initial public offering.

(5) Computations of per share amounts are made independently for the three months and year ended December 31, 2011. Therefore, the sum of per share amounts from the three months ended December 31, 2011, September 30, 2011, June 30, 2011 and March 31, 2011 may not agree with the per share amounts for the year ended December 31, 2011.

Notes:

(1) The net rentable square feet for each of our retail properties and the retail portion of our mixed-use property is the sum of (1) the square footages of existing leases, plus (2) for available space, the field-verified square footage. The net rentable square feet for each of our office properties is the sum of (1) the square footages of existing leases, plus (2) for available space, management's estimate of net rentable square feet based, in part, on past leases. The net rentable square feet included in such office leases is generally determined consistently with the Building Owners and Managers Association, or BOMA, 1996 measurement guidelines.

(2) Percentage leased for each of our retail and office properties and the retail portion of the mixed-use property includes square footage under leases as of December 31, 2011, including leases which may not have commenced as of December 31, 2011. Percentage leased for our multifamily properties includes total units rented as of December 31, 2011.

(3) Annualized base rent is calculated by multiplying base rental payments (defined as cash base rents (before abatements)) for the month ended December 31, 2011, by 12. In the case of triple net or modified gross leases, annualized base rent does not include tenant reimbursements for real estate taxes, insurance, common area or other operating expenses.

(4) Annualized base rent per leased square foot is calculated by dividing annualized base rent, by square footage under lease as of December 31, 2011. Annualized base rent per leased unit is calculated by dividing annualized base rent, by units under lease as of December 31, 2011.

(5) Retail anchor tenants are defined as retail tenants leasing 50,000 square feet or more.

(6) Other principal retail tenants are defined as the two tenants leasing the most square footage, excluding anchor tenants.

(7) Net rentable square feet at certain of our retail properties includes pad sites leased pursuant to the ground leases in the following table:

Property	Number of Ground Leases	Square Footage Leased Pursuant to Ground Leases	Aggregate Annualized Base Rent
Carmel Mountain Plaza	6	127,112	$ 1,020,900
South Bay Marketplace	1	2,824	$ 81,540
Del Monte Center	2	295,100	$ 201,291
Alamo Quarry Market	4	31,994	$ 428,250

(8) This property contains 421,934 net rentable square feet consisting of The Landmark at One Market (377,714 net rentable square feet) as well as a separate long-term leasehold interest in approximately 44,220 net rentable square feet of space located in an adjacent six-story leasehold known as the Annex. We currently lease the Annex from an affiliate of the Paramount Group pursuant to a long-term master lease effective through June 30, 2016, which we have the option to extend until 2026 pursuant to two five-year extension options.

(9) The Santa Fe Park RV Resort is subject to seasonal variation, with higher rates of occupancy occurring during the summer months. During the 12 months ended December 31, 2011, the highest average monthly occupancy rate for this property was 96%, occurring in July 2011. The number of units at the Santa Fe Park RV Resort includes 122 RV spaces and four apartments.

(10) Average occupancy represents the percentage of available units that were sold during the year ended December 31, 2011, and is calculated by dividing the number of units sold by the product of the total number of units and the total number of days in the period. Average daily rate represents the average rate paid for the units sold and is calculated by dividing the total room revenue (i.e., excluding food and beverage revenues or other hotel operations revenues such as telephone, parking and other guest services) for the year ended December 31, 2011, by the number of units sold. Revenue per available room, or RevPAR, represents the total unit revenue per total available units for the year ended December 31, 2011 and is calculated by multiplying average occupancy by the average daily rate. RevPAR does not include food and beverage revenues or other hotel operations revenues such as telephone, parking and other guest services.

APPENDIX

EBITDA: EBITDA is a non-GAAP measure that means net income or loss plus depreciation and amortization, net interest expense, income taxes, gain or loss on sale of real estate and impairments of real estate, if any. EBITDA is presented because it approximates a key performance measure in our debt covenants, but it should not be considered an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP. The reconciliation of net income to EBITDA for the three months and year ended December 31, 2011 is as follows:

	Three Months Ended December 31, 2011	Year Ended December 31, 2011
Net income	$ 655	$ 19,324
Depreciation and amortization	15,723	57,639
Interest expense	14,696	56,487
Interest income	(535)	(1,621)
Income tax expense	(117)	573
Gain on sale of real estate	-	(3,981)
EBITDA	$ 30,422	$ 128,421

Adjusted EBITDA: Adjusted EBITDA is a non-GAAP measure that begins with EBITDA and includes adjustments for certain items that we believe are not representative of ongoing operating performance. We use Adjusted EBITDA as a supplemental performance measure because losses from early extinguishment of debt, loan transfer and consent fees and gains on acquisitions of controlling interests create significant earnings volatility which in turn results in less comparability between reporting periods and less predictability regarding future earnings potential. The adjustments noted resulted from our initial public offering and formations transactions.

	Three Months Ended December 31, 2011	Year Ended December 31, 2011
EBITDA	$ 30,422	$ 128,421
Early extinguishment of debt	-	25,867
Loan transfer and consent fees	-	9,019
Gain on acquisition	-	(46,371)
Adjusted EBITDA	$ 30,422	$ 116,936

Funds From Operations (FFO): FFO is a supplemental measure of real estate companies' operating performances. The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as follows: net income, computed in accordance with GAAP plus depreciation and amortization of real estate assets and excluding extraordinary items, gains and losses on sale of real estate and impairment losses. NAREIT developed FFO as a relative measure of performance and liquidity of an equity REIT in order to recognize that the value of income-producing real estate historically has not depreciated on the basis determined under GAAP. However, FFO does not represent cash flows from operating activities in accordance with GAAP (which, unlike FFO, generally reflects all cash effects of transactions and other events in the determination of net income); should not be considered an alternative to net income as an indication of our performance; and is not necessarily indicative of cash flow as a measure of liquidity or ability to pay dividends. We consider FFO a meaningful, additional measure of operating performance primarily because it excludes the assumption that the value of real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. Comparison of our presentation of FFO to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

Funds From Operations As Adjusted (FFO As Adjusted): FFO As Adjusted is a supplemental measure of real estate companies' operating performances. We use FFO As Adjusted as a supplemental performance measure because losses from early extinguishment of debt, loan transfer and consent fees and gains on acquisitions of controlling interests create significant earnings volatility which in turn results in less comparability between reporting periods and less predictability regarding future earnings potential. The adjustments noted resulted from our initial public offering and formation transactions. However, other REITs may use different methodologies for defining adjustments and, accordingly, our FFO As Adjusted may not be comparable to other REITs.

Funds Available for Distribution (FAD): FAD is a supplemental measure of our liquidity. We compute FAD by subtracting from FFO As Adjusted tenant improvements, leasing commissions and maintenance capital expenditures, eliminating the net effect of straight-line rents, amortization of above (below) market rents for acquisition properties, the effects of other lease intangibles, adding noncash amortization of deferred financing costs and debt fair value adjustments, adding noncash compensation expense, and adding (subtracting) unrealized losses (gains) on marketable securities. FAD provides an additional perspective on our ability to fund cash needs and make distributions by adjusting FFO for the impact of certain cash and noncash items, as well as adjusting FFO for recurring capital expenditures and leasing costs. However, other REITs may use different methodologies for calculating FAD and, accordingly, our FAD may not be comparable to other REITs.

Net Operating Income (NOI): We define NOI as operating revenues (rental income, tenant reimbursements and other property income) less property and related expenses (property expenses and real estate taxes). Other REITs may use different methodologies for calculating NOI, and accordingly, our NOI may not be comparable to other REITs. Since NOI excludes general and administrative expenses, interest expense, depreciation and amortization, acquisition-related expenses, other nonproperty income and losses, gains and losses from property dispositions, and extraordinary items, it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate and the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing a perspective on operations not immediately apparent from net income. However, NOI should not be viewed as an alternative measure of our financial performance since it does not reflect general and administrative expenses, interest expense, depreciation and amortization costs, other nonproperty income and losses, the level of capital expenditures and leasing costs necessary to maintain the operating performance of the properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact our results from operations.

Tenant Improvements and Incentives: Represents not only the total dollars committed for the improvement (fit-out) of a space as it relates to a specific lease but may also include base building costs (i.e. expansion, escalators, new entrances, etc.) which are required to make the space leasable. Incentives include amounts paid to tenants as an inducement to sign a lease that do not represent building improvements.
